

CLOUD COMPUTING LAB

Lab Number 01

**Lab Title: GitHub Identity, Student Portal Registration, and
Ubuntu Server Installation**

Name: Ayesha Asif

Registration No: FA24B1-SE-046

Course Code: SE-665

Section: B

GitHub Username: ayeshaasif46

DEPARTMENT OF SOFTWARE ENGINEERING

SESSION: 2024-2028

LAB TASKS

Task1: Create and Configure Your GitHub Account.

Description: Created a personal GitHub account using actual identity, set the username to ayeshaasif46, and updated the Public Profile settings to display the full name **Ayesha Asif**.

Figure1.1: github_profile.png

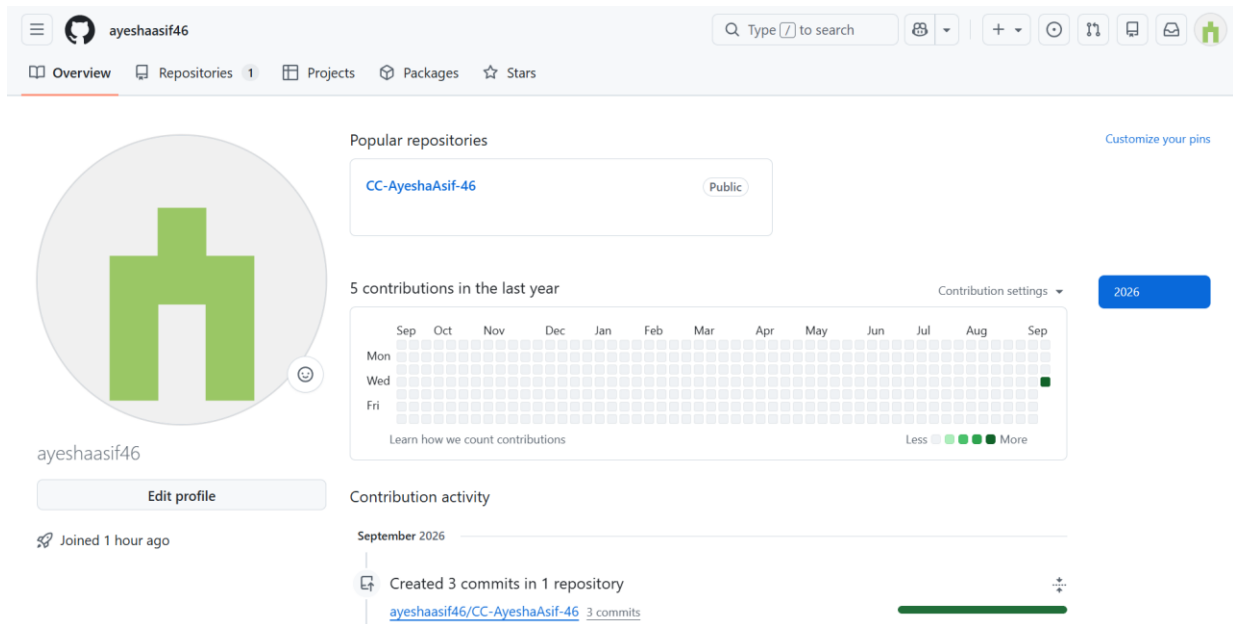

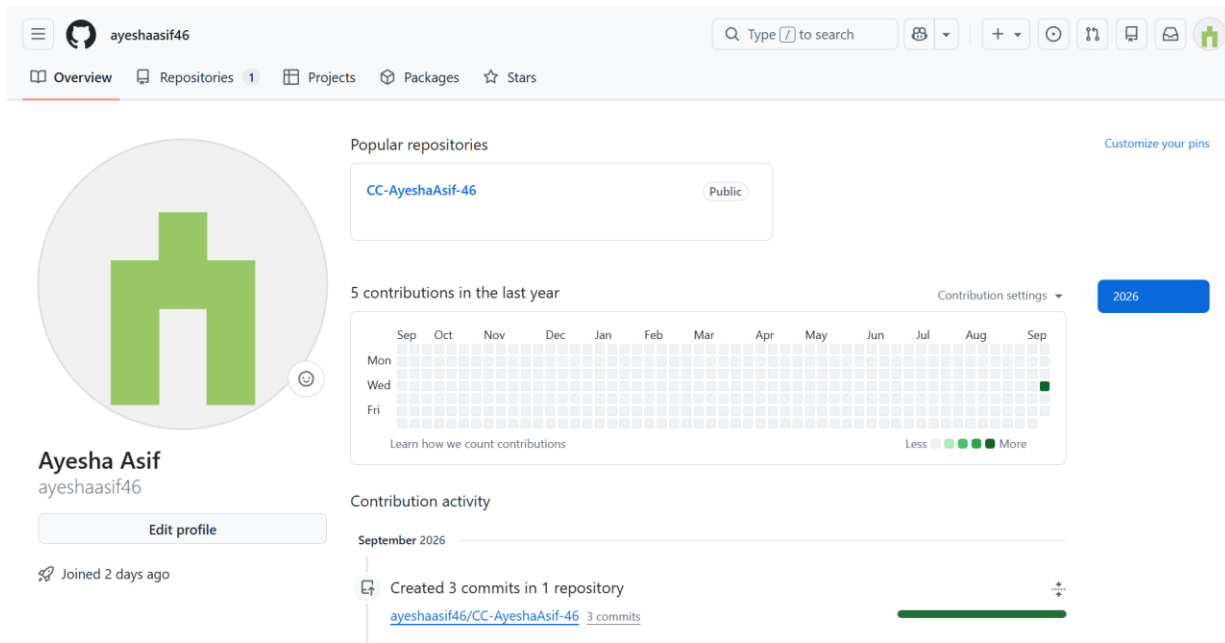

Figure 1.2: github_actual_name.png

Task 2: Register in the Student Marks Portal.

Description: Logged into the Student Marks Portal using the ayeshaasif46 GitHub account and submitted official registration details using Registration no 2024-BSE-46.

Figure 2.1: portal_login_page.png

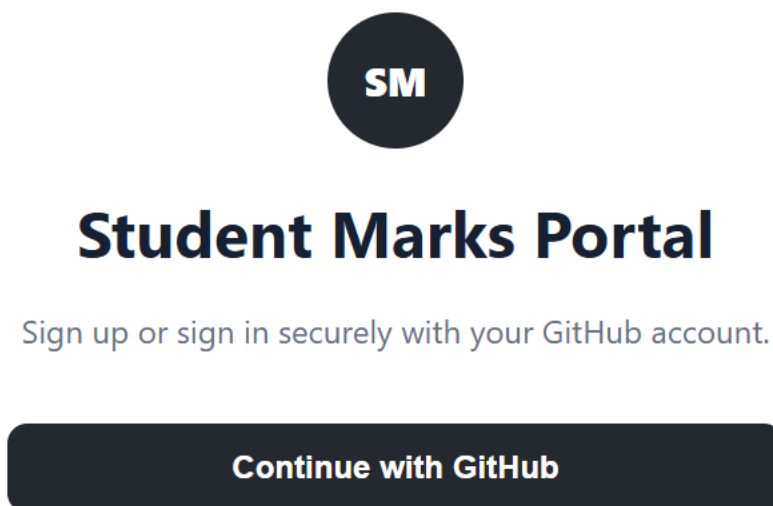

Figure 2.2:portal_github_profile.png

Complete registration

Enter your registration number, course and section.

The enrollment requires approval.

Task 3: Download VMware Workstation Pro and Ubuntu Server

Description: Installed VMware Workstation Pro, downloaded the Ubuntu Server, and verified over 20 GB of free disk storage space.

Figure 3.1: vmware_workstation.png

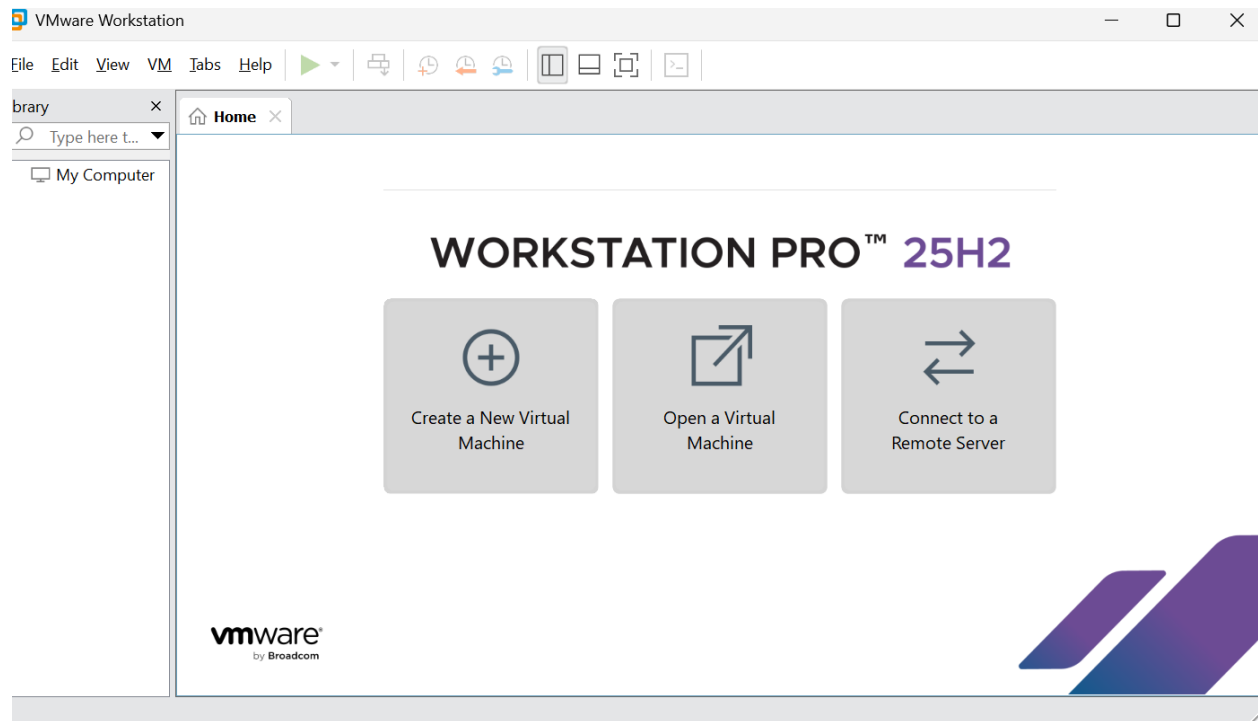

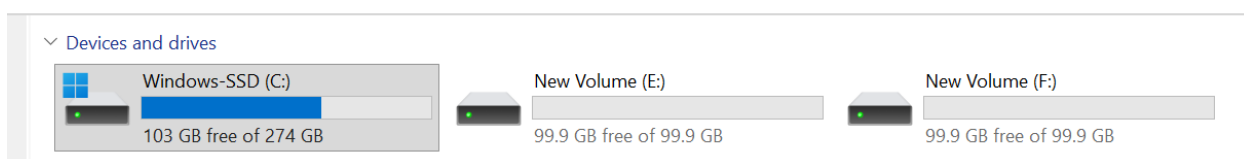

Figure 3.2: ubuntu_server_iso.png

 VMware-Workstation-Full-25H2u1-25219725	9/16/2026 1:37 PM	Application	284,992 KB
 ubuntu-26.04.1-live-server-amd64	9/16/2026 11:46 AM	Disc Image File	2,859,240 KB

Figure 3.3: available_storage.png

Task 4: Create the Ubuntu Server Virtual Machine

Description: Configured a new "Typical" virtual machine in VMware Workstation, selected the downloaded Ubuntu ISO file, allocated 20 GB of virtual disk space, and started the boot process.

Figure 4.1: vm_creation_wizard.png

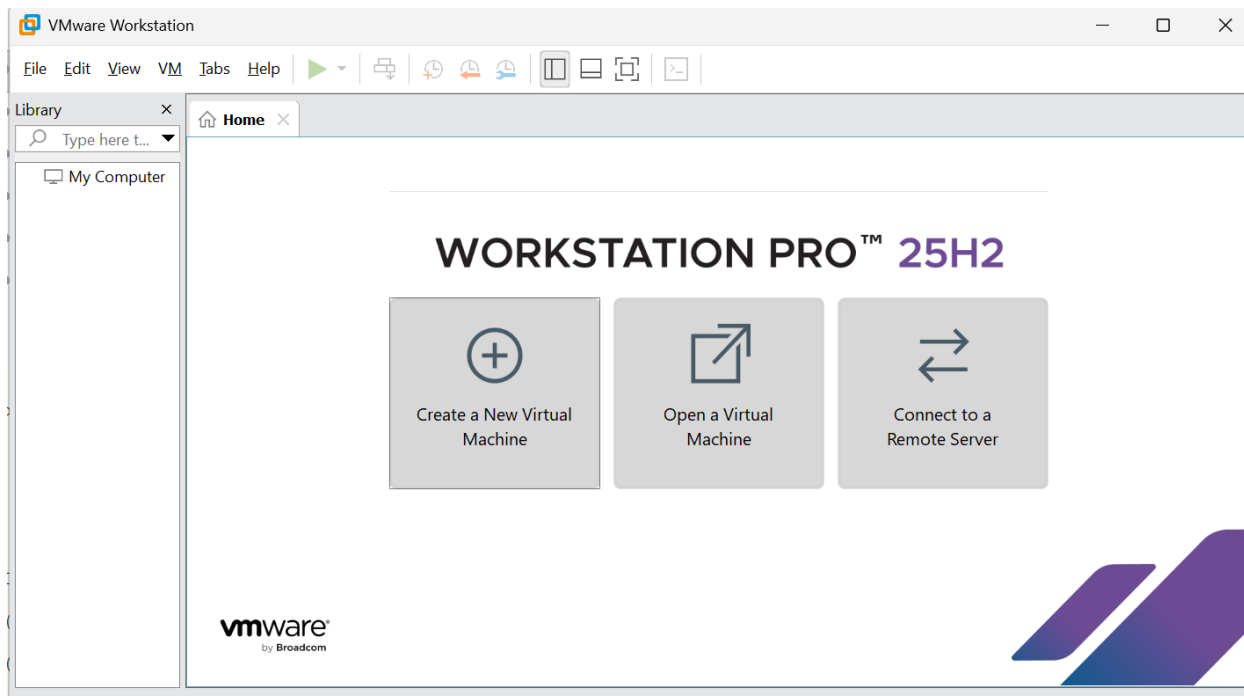

Figure 4.2: vm_typical_configuration.png

Figure 4.3: vm_ubuntu_iso_selected.png

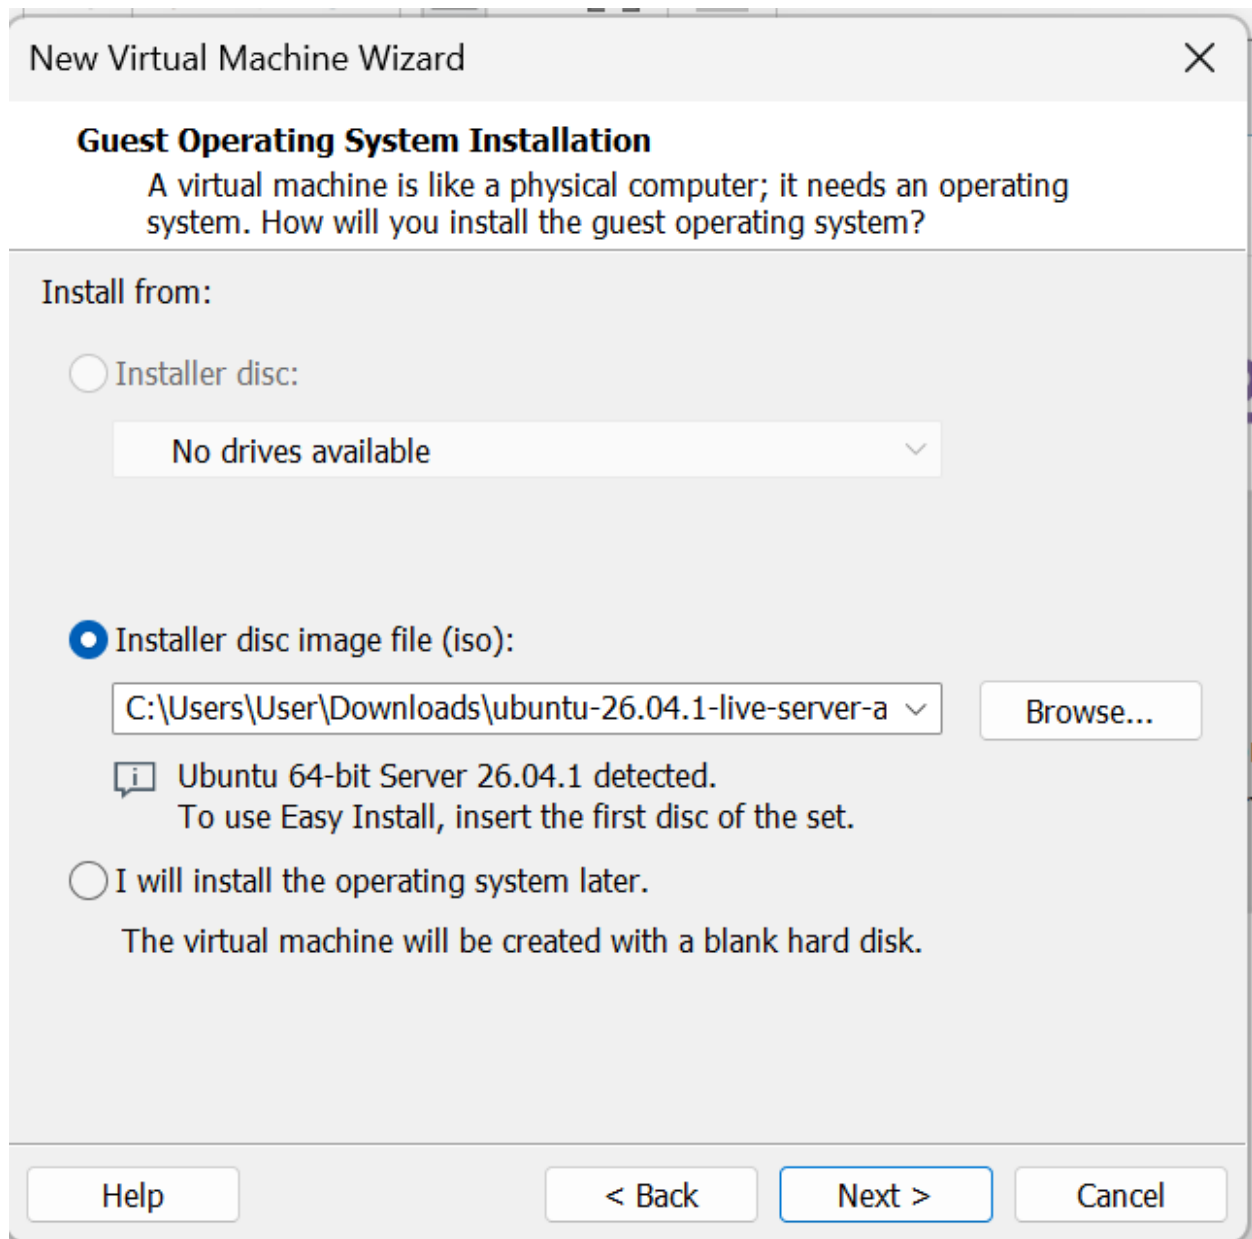

Figure 4.4: vm_configuration_summary.png

New Virtual Machine Wizard

×

Specify Disk Capacity
How large do you want this disk to be?

The virtual machine's hard disk is stored as one or more files on the host computer's physical disk. These file(s) start small and become larger as you add applications, files, and data to your virtual machine.

Maximum disk size (GB):

Recommended size for Ubuntu 64-bit: 20 GB

☐ Store virtual disk as a single file

☒ Split virtual disk into multiple files

Splitting the disk makes it easier to move the virtual machine to another computer but may reduce performance with very large disks.

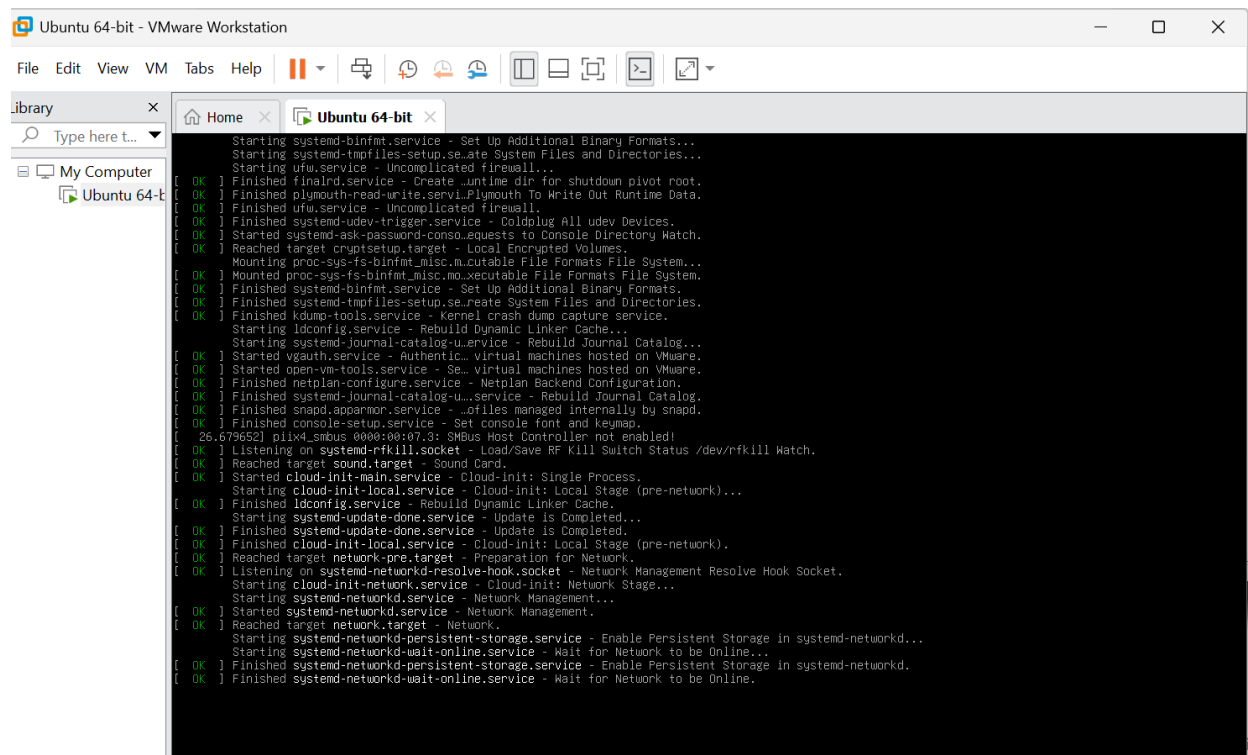

Help

Cancel

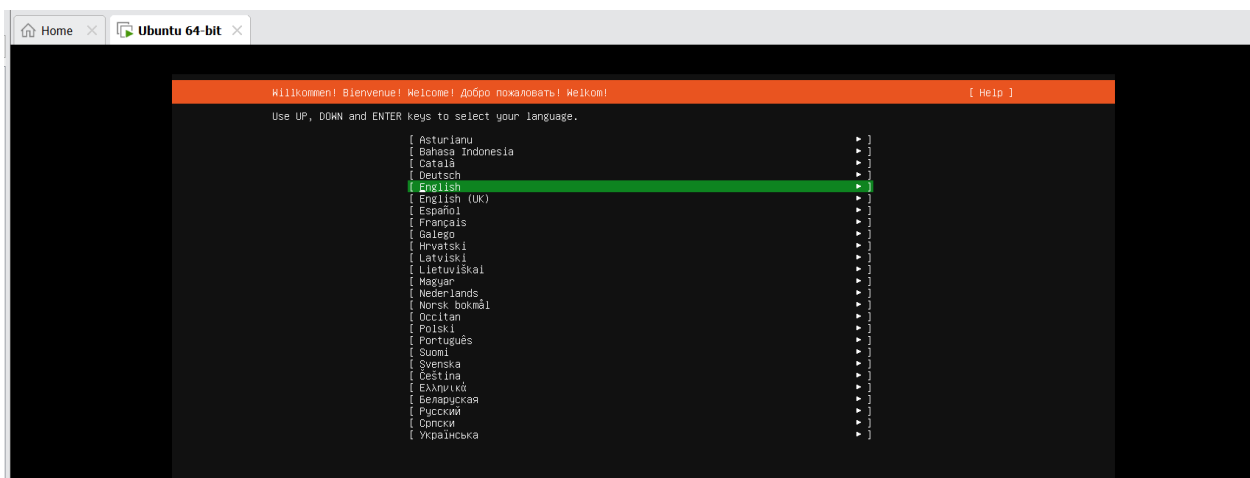

Figure 4.5: Ubuntu_installer_boot.png

Task 5: Choose the Installation Language

Description: Navigated the Ubuntu Server installer startup screen using arrow keys and selected English as the installation language.

Figure 5.1: Ubuntu_language.png

Task 6: Configure the Keyboard Layout

Description: Selected the English (UK) keyboard layout and variant to ensure accurate terminal typing.

Figure 6.1: ubuntu_keyboard_layout.png

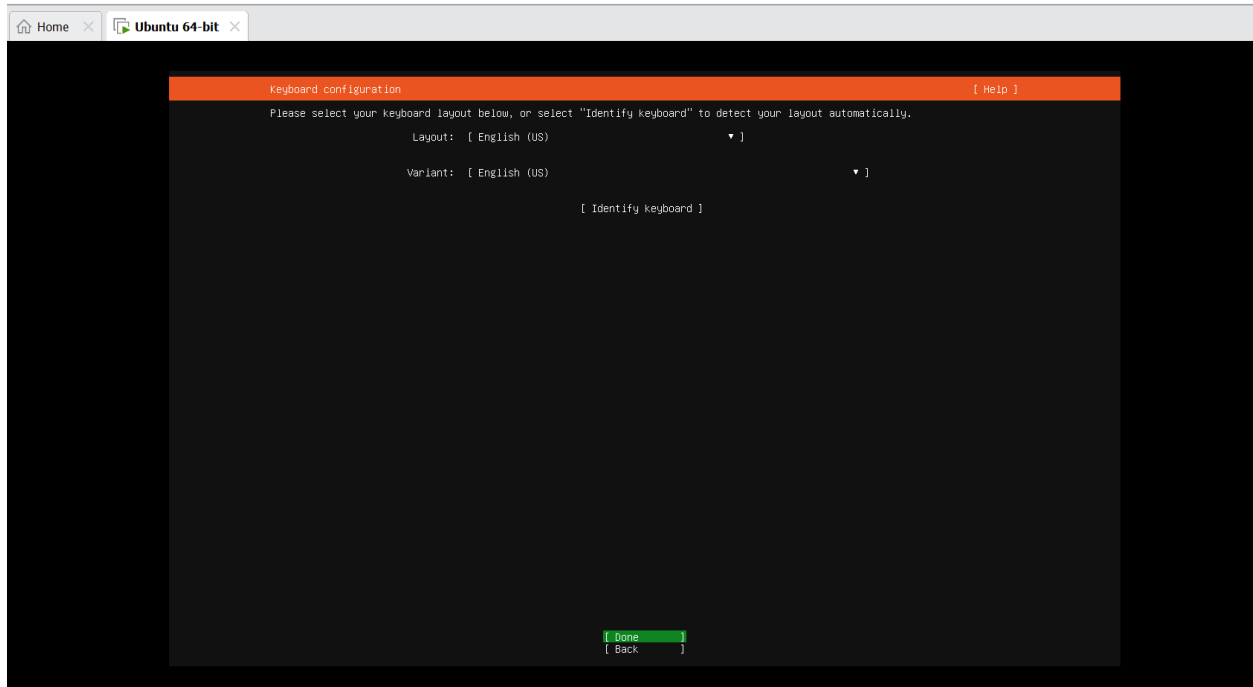

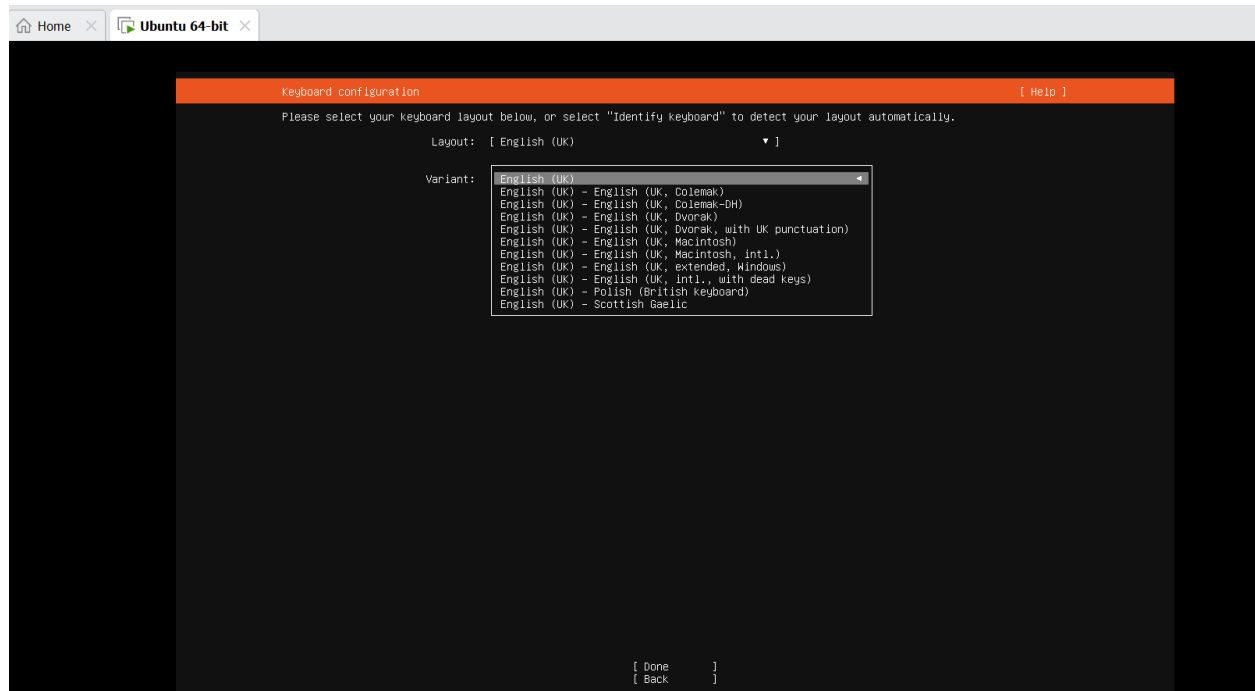

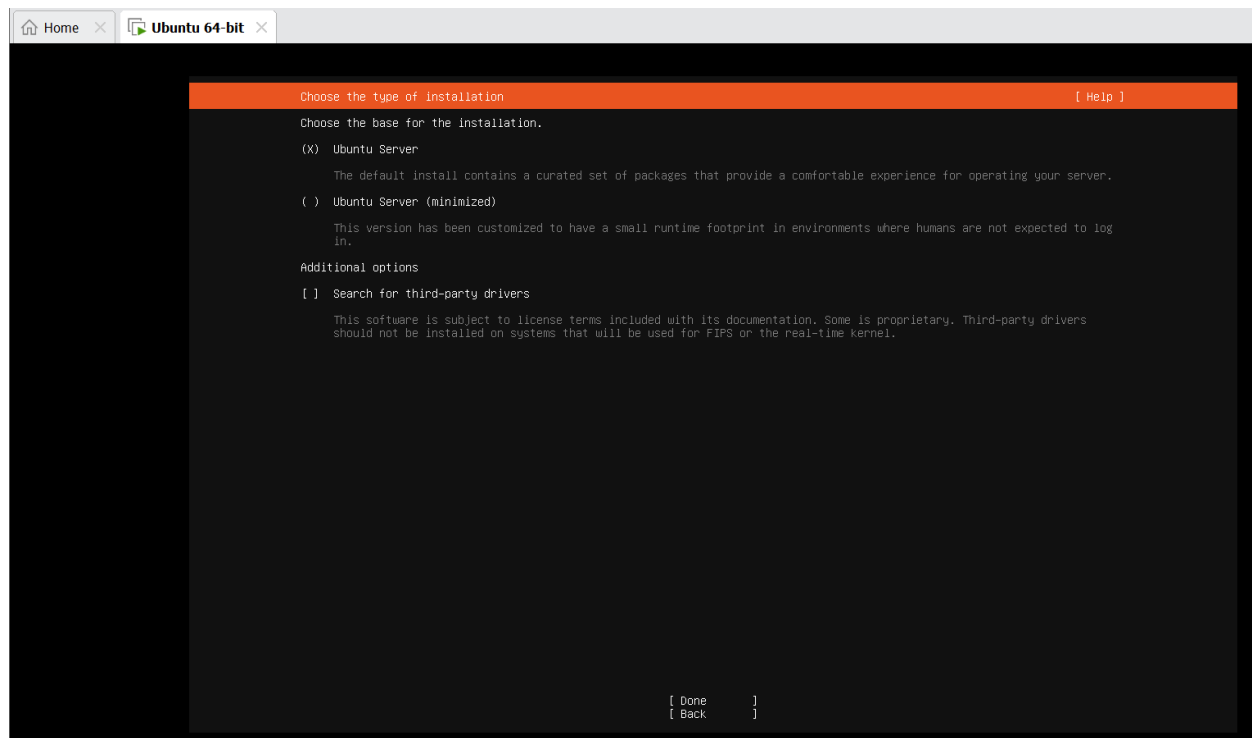

Figure 6.1: ubuntu_keyboard_variant.png

Task 7: Choose the Ubuntu Server Installation Type

Description: Selected the standard Ubuntu Server base installation profile, skipping unnecessary configurations.

Figure 7.1: ubuntu_installation_type.png

Task 8: Configure the Network

Description: Verified that the network interface was properly detected and received an automated IPv4 address via DHCP.

Figure 8.1:ubuntu_network_interface.png

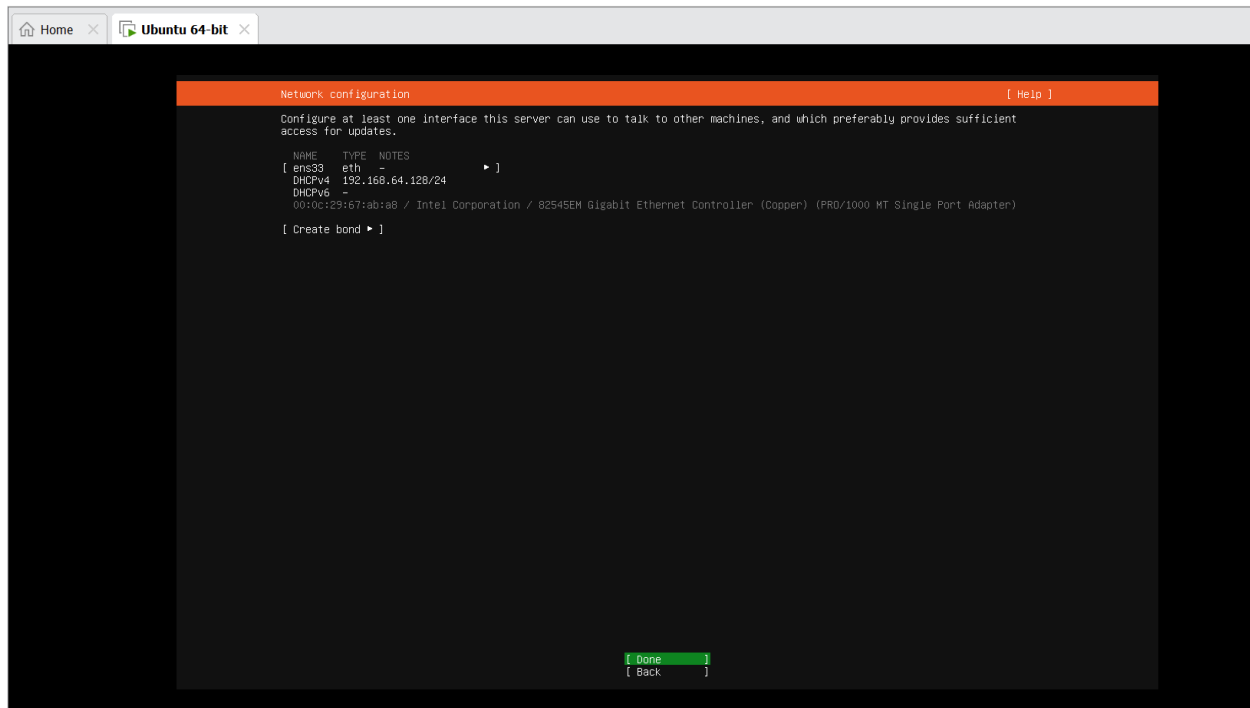

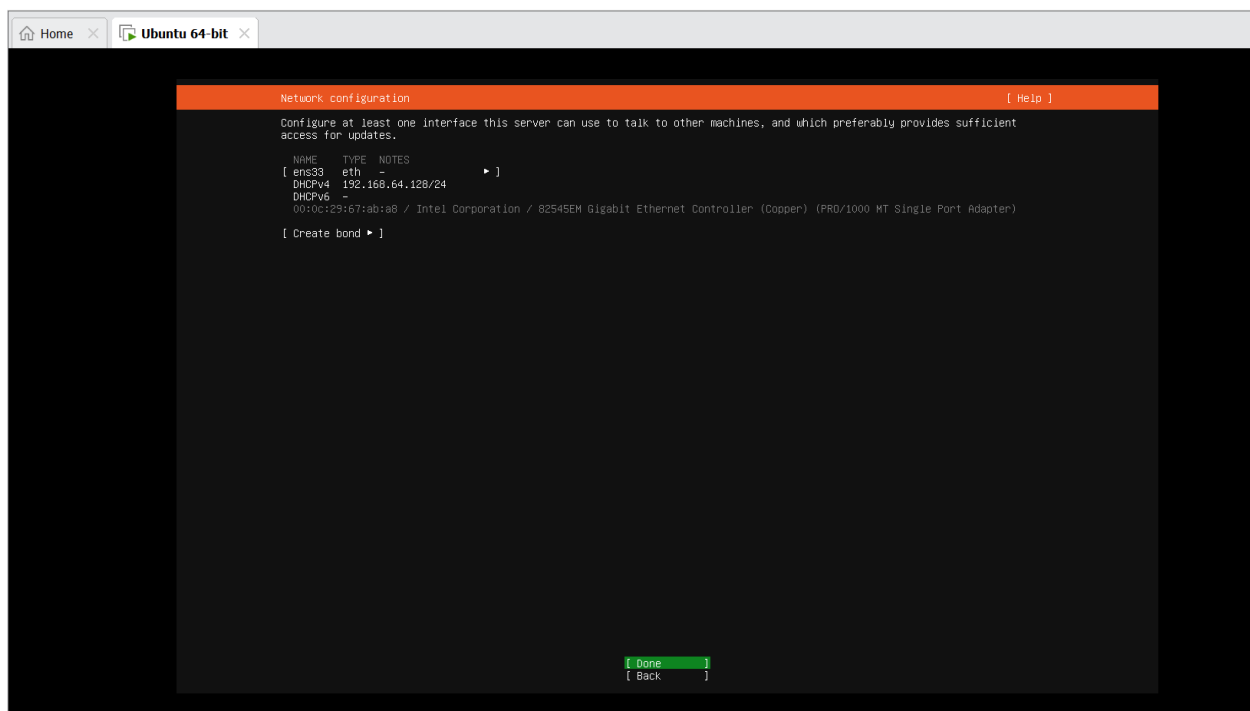

Figure 8.2:Ubuntu_installer_network.png

Task 9: Configure Storage

Description: Selected the guided storage option to allow automatic layout partitioning on the allocated virtual disk.

Figure 9.1: ubuntu_guided_storage.png

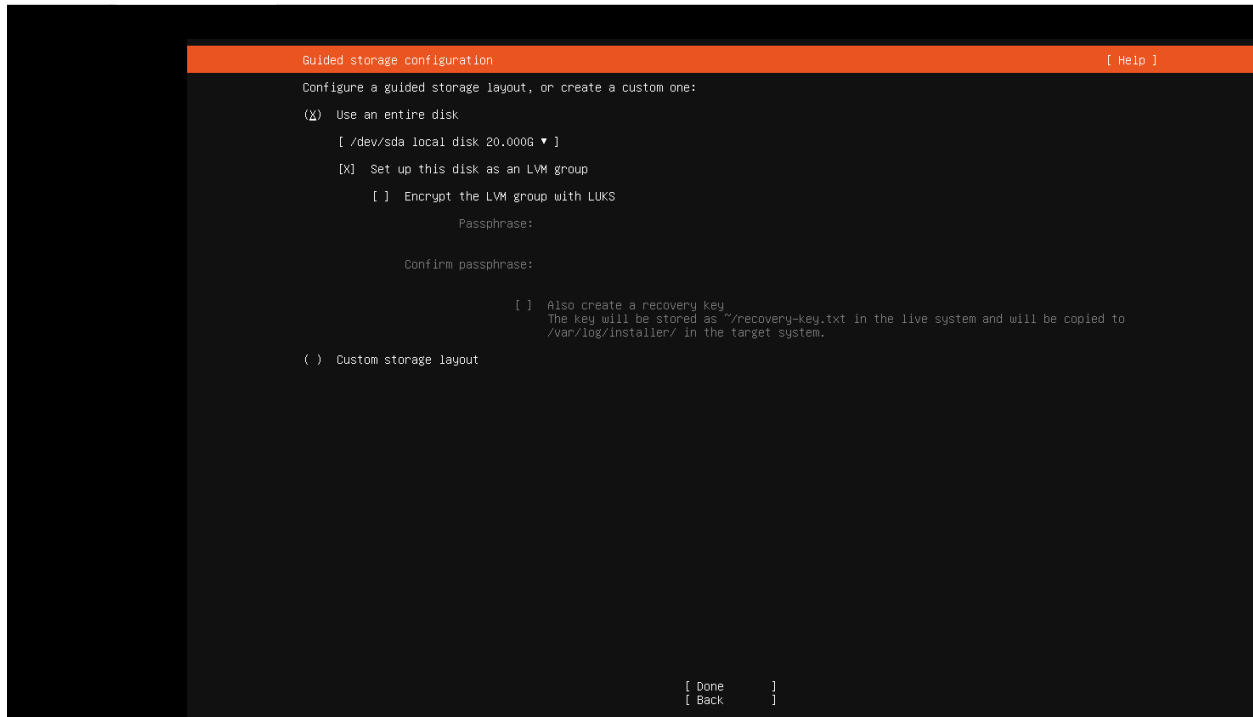

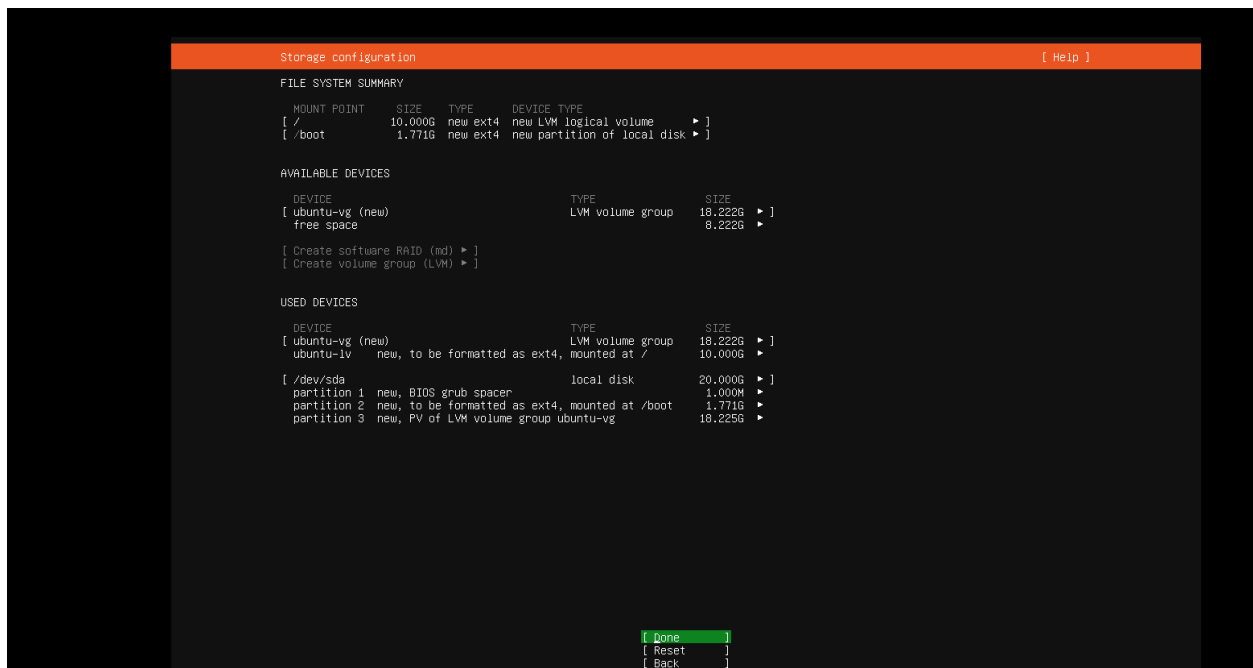

Figure 9.2: ubuntu_storage_configuraion.png

Task 10: Select the Installation Disk

Description: Selected the targeted 20 GB VMware virtual disk for installation after confirming its details and capacity.

Figure 10.1: ubuntu_selected_disk.png

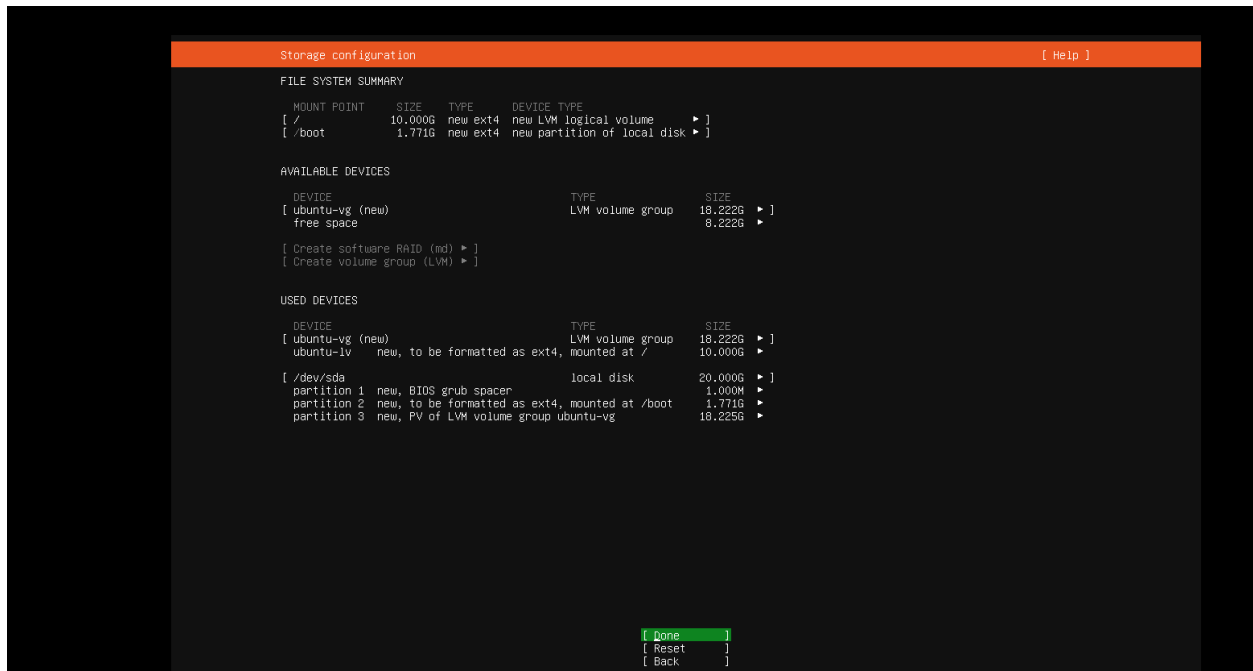

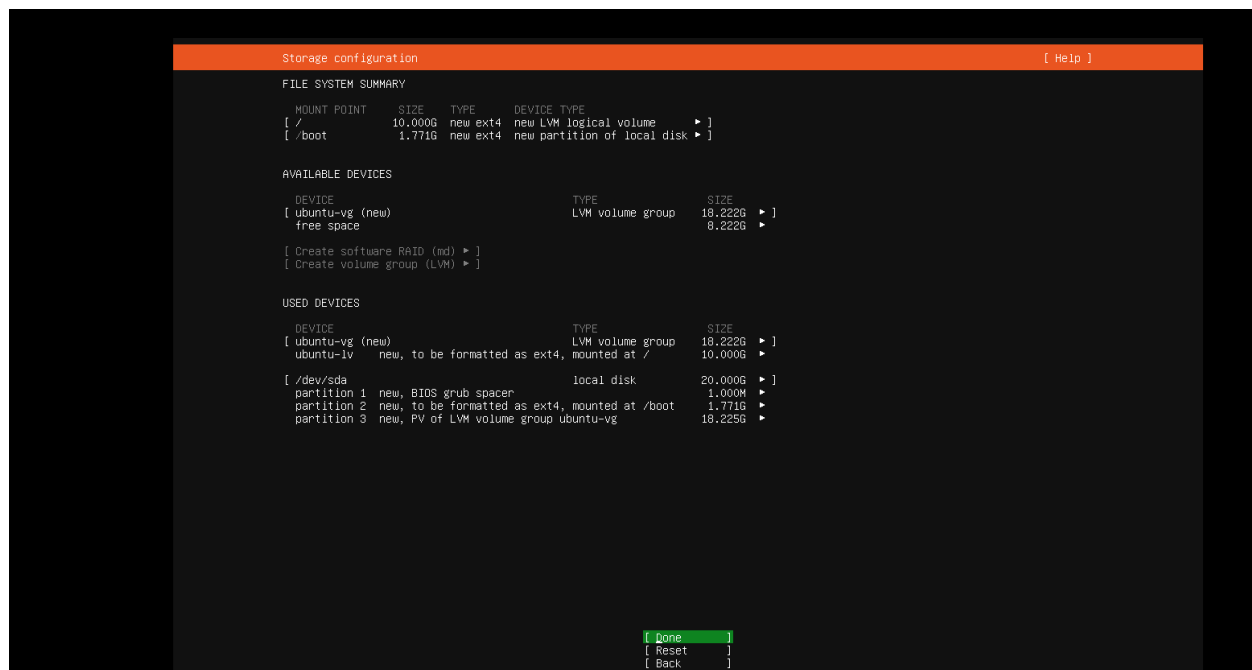

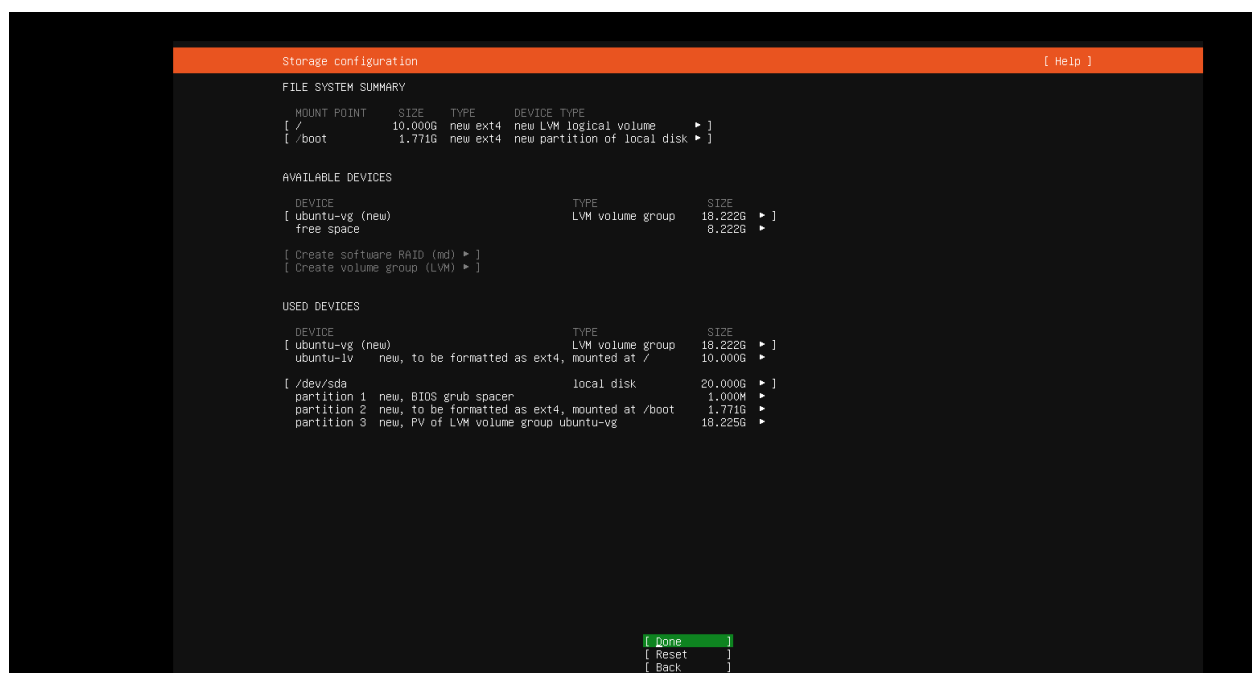

Figure 10.2: ubuntu_disk_details.png

Task 11: Review the Partitions

Description: Reviewed the proposed file system partition layout to ensure changes applied strictly to the selected virtual disk.

Figure 11.1: ubuntu_partition_layout.png

Task 12: Confirm the Storage Changes

Description: Read the destructive-action prompt and confirmed the storage changes to begin writing partitions to the virtual disk.

Figure 12.1: ubuntu_storage_warning.png

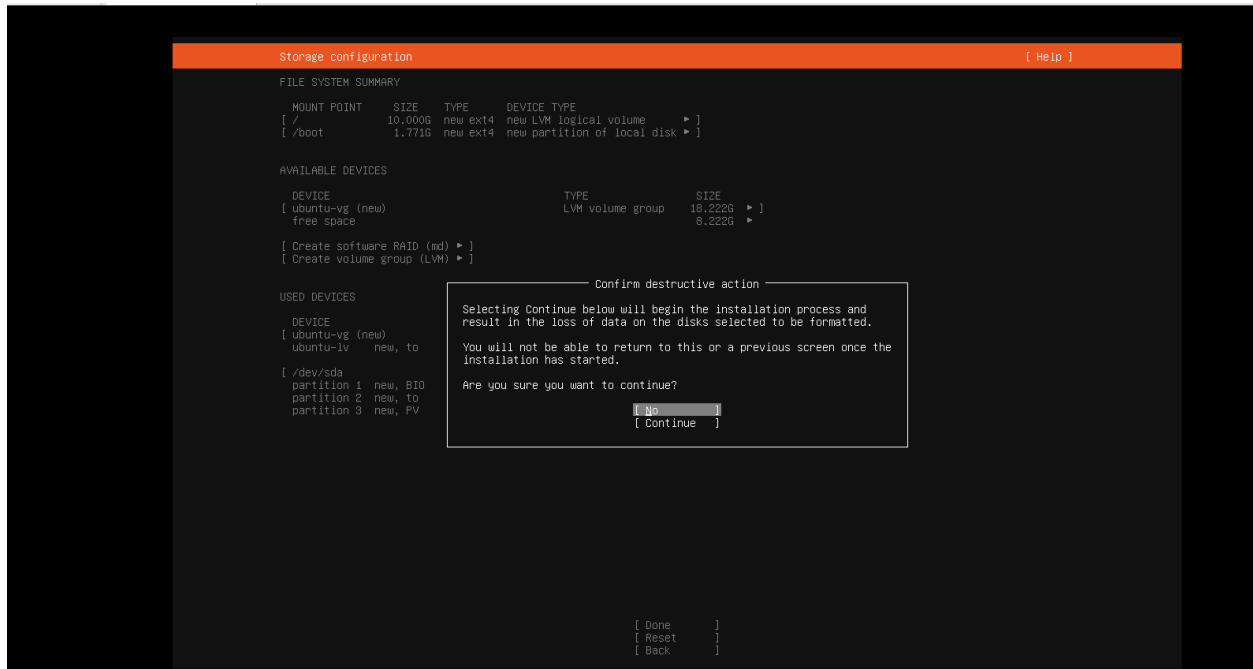

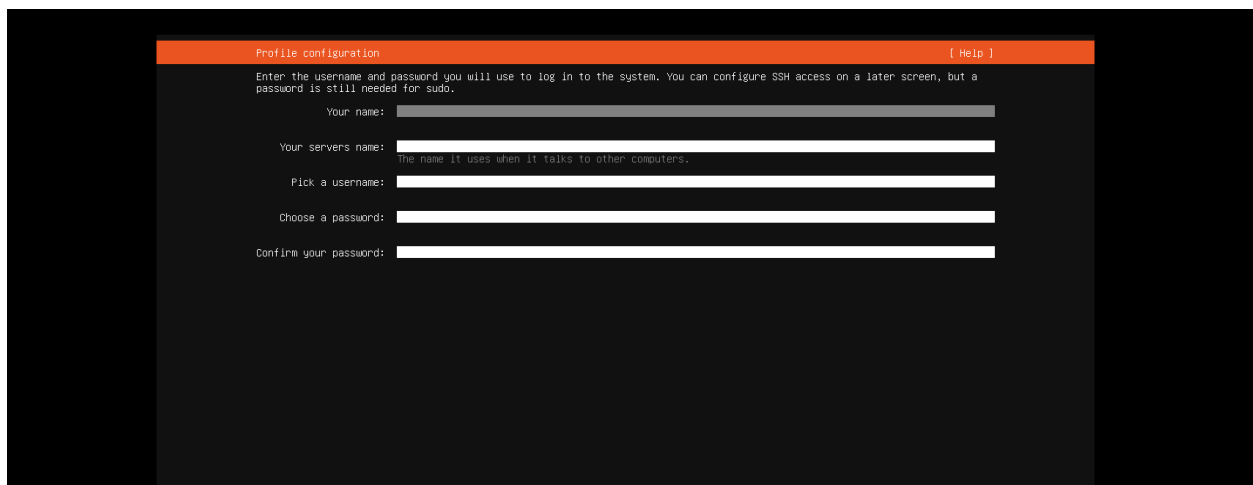

Figure 12.2: ubuntu_storage_confirmed.png

Task 13: Configure the Ubuntu Profile

Description: Entered **Ayesha Asif** in the "Your name" field, set server name to ubuntu, set the system username to ayeshaasif46, and configured a secure password.

Figure 13.1: ubuntu_actual_name.png

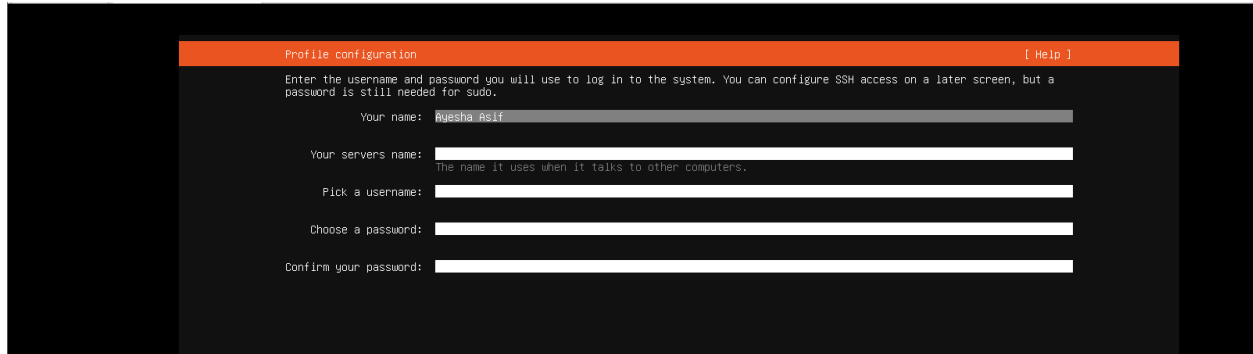

Figure 13.2: ubuntu_server_name.png

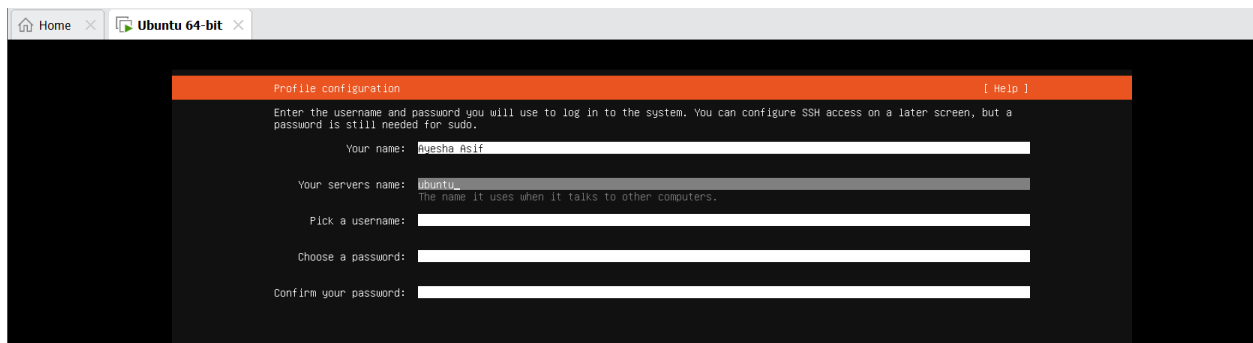

Figure 13.3: ubuntu_username.png

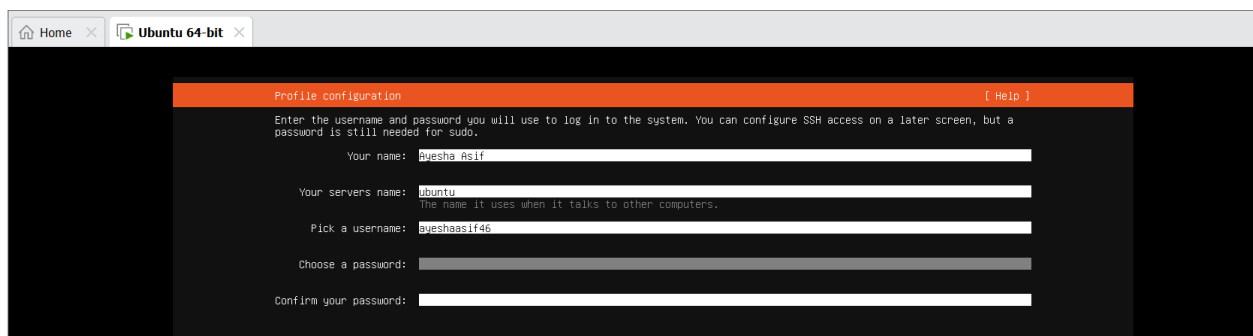

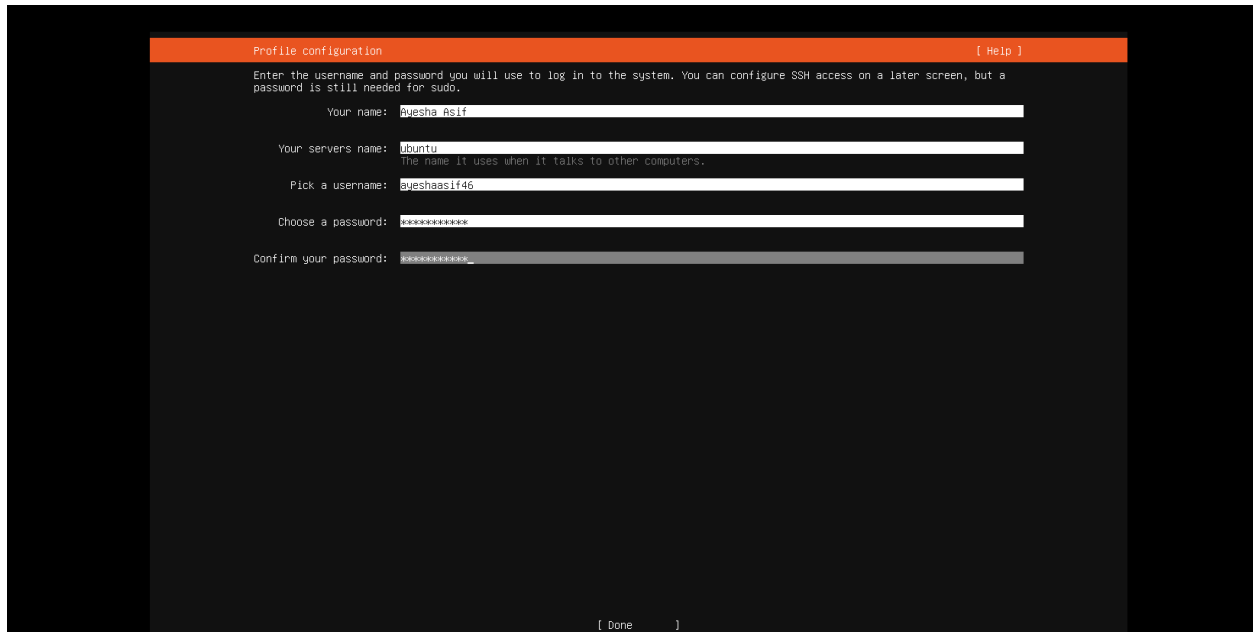

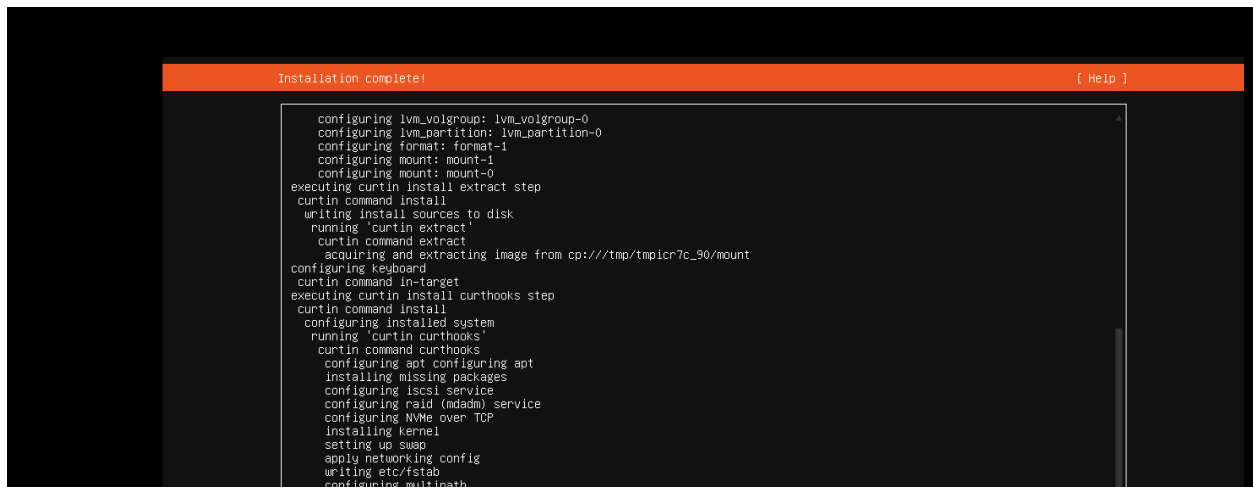

Figure 13.4: ubuntu_profile_setup.png

Task 14: Complete the Software Installation

Description: Monitored the installation progress as the server installed basic software packages and dependencies without interrupting the process.

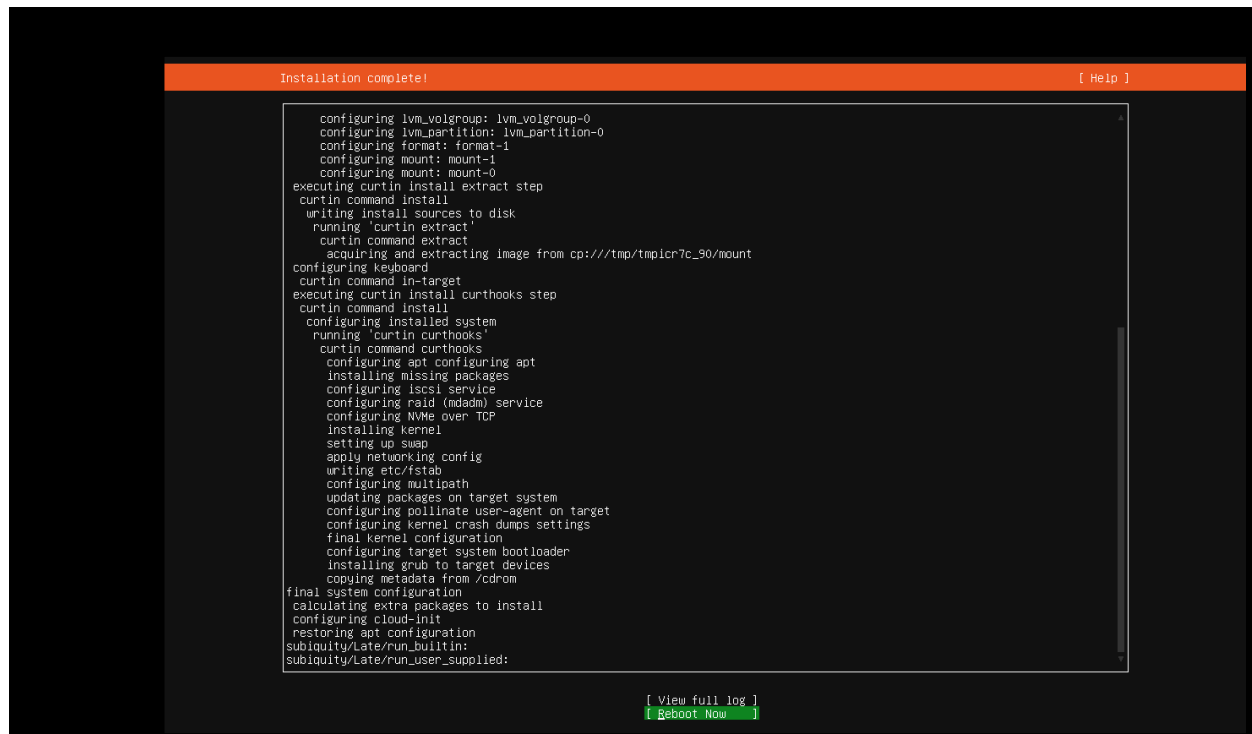

Figure 14.1: ubuntu_installation_progress.png

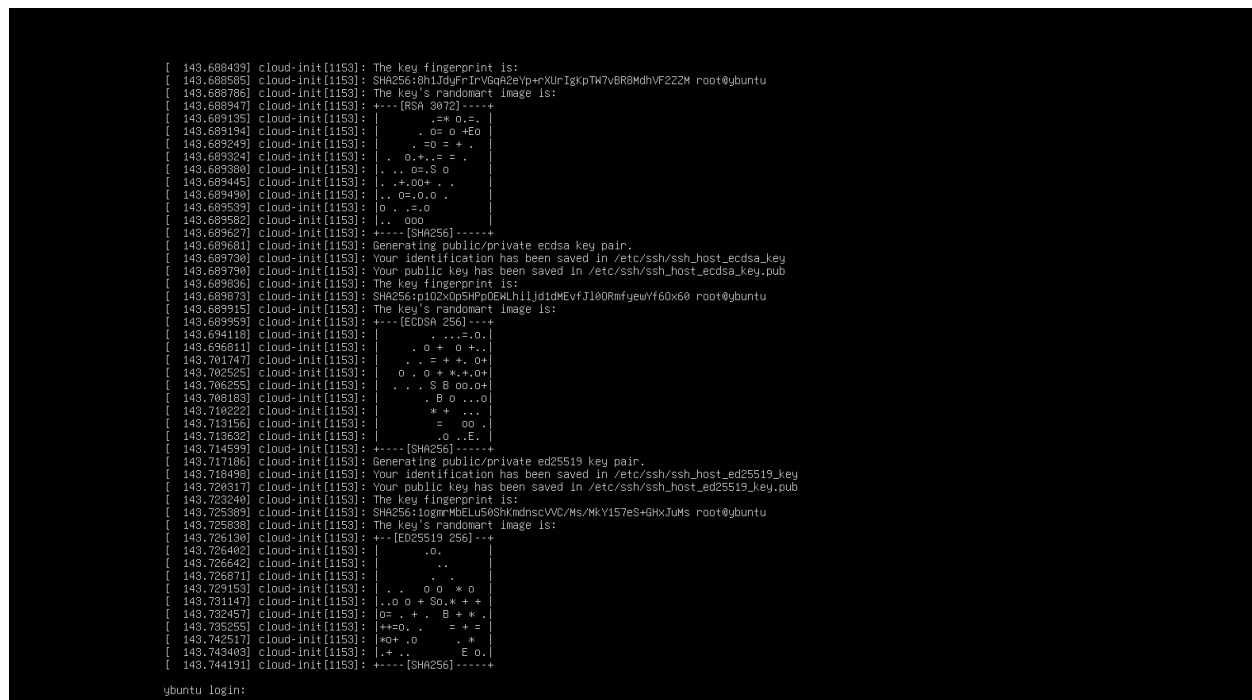

Task 15: Reboot and Verify the Ubuntu Identity

Description: Rebooted the VM, logged in with credentials, and confirmed the active terminal prompt displayed ayeshaasif46@ubuntu:~\$.

Task 15.1: ubuntu_installation_complete.png

Task 15.2: ubuntu_login_screen.png
